Q3.

I have used the basics of HTML5 (HTML stands for Hyper Text Markup Language) and CSS3 (CSS stands for Cascading Style Sheet) along with w3 school's own CSS framework. Creating a webpage has been made very easier. Thanks to the advancement of technologies that enable us to use a predefined framework to construct the website rather than hard coding everything from scratch.

I am Manojkumar V K, CB.EN.U4CSE17040. I have a CGPA of 9.44. Throughout these four years I have accomplished several tasks which include but not limited to

- Titled as Global Problem Solver by NASA
- Top 5 at Humanitarian Engineering Festival organised by IEEE, Jakarta
- Top 50 in all participated Analytics Vidhya Hackathons
- and many others
